RE: Contamination of Soils and Groundwater
General Die Casting Facility
13700 & 13400 Mt. Elliott
Detroit, Michigan

Dear Mr. Shirley:

The closure request you submitted on October 15, 1990, does not meet the Michigan Department of Natural Resources standards, per Part 7., Rule 299.5707, Administrative Rules promulgated pursuant to the Michigan Environmental Response Act (1982 P.A.307, as amended). Therefore, clean closure approval is denied.

Per Part 5., Rules 299.5509 and 5511 of the above referenced Act, you are hereby directed to immediately conduct additional investigation and corrective actions, including but not limited to the following: 1) define the full extent of the contamination both vertically and horizontally in the soils and groundwater throughout the entire site, 2) determine if the contaminants have impacted any adjacent property owners, 3) address the PNAs and any other contaminants present, and 4) submit a remedial action plan per the requirements R 299.5513, which will achieve the clean-up criteria in Part 7.

If you want a return receipt, write the certified mail number and your name and address on a return receipt card, Form 3871, and attach it to the front of the article by means of the gummed ends if space permits. Otherwise, affix to back of article. Endorse front of article RETURN RECEIPT REQUESTED adjacent to the number.

If you want delivery restricted to the addressee, or to an authorized agent of the addressee, after fees for the services requested in the appropriate spaces on this receipt and present it if you make inquiries.

STRICTED DELIVERY on the front of the article.

Please respond, in writing, within five days from receipt of this letter with your intent to comply. Also within 21 days from receipt of this letter, submit to this office, for review and approval, a work plan to conduct a site investigation to define the full extent of the environmental contamination.

Enclosed you will find a copy of Act 307, The Michigan Environmental Response Act, which details your responsibility as the potentially responsible party for a known site of environmental contamination.

Be advised that compliance with the requirements of this letter does not constitute a release or waiver of liability for past or continuing violations of the Michigan Environmental Response Act, as amended, or any other State or Federal Law.

Please feel free to contact Michael Stenzel at (313)-953-0241 if you have any further questions.

Sincerely,

Dipo Oyinsan, MDNR Supervisor
